Homework: finish your sketchnote of SI, write a rough draft of your ghost story - if it is not complete, have an outline and at least the first page or so written!

Share two things that really worked well in his/her sketch?

What did you learn from looking at someone else's sketch?

Creating your sketchnote on the Scarlet Ibis, make sure to consider the essence of the story and include the following:

- 3-4 quotes that are significant in some way to the story (these can be character reveals, they can pertain to the theme, or they can have some significance/connection to you, personally)

- the significant symbols in the story

- the mood of the story

Sketchnotes are visual, so make sure you are interpreting the story and visually explaining what you found significant!
