Book 11

Anticlea
Achilles
Tiresias
Elpnor

O. doesn't know that his mother died! Shocked!

Achilles, greatest hero of the times, who died in battle - a glorious death - would rather be alive and a poor farmer than famous and dead. Say what?

The blind prophet tells O. that he will eventually make it home to Ithaca, but alone (all the men will die, remember?) and then after he deals with the suitors, he will need to make another journey to atone for his sin against Poseidon....could there be a third story?!

Elpnor, crew member who died on Circe's island after he fell off a roof in a drunken stupor, begs to have a proper burial...rituals for dealing with the dead - clearly important to Greek culture. Bury your dead, people!
